

Your Correct Choice for a Perfect

Smile

A grayscale photograph of a female dentist wearing a hijab, a surgical mask, and a white lab coat. She is performing a dental procedure on a male patient who is reclined in a dental chair. The dentist is wearing gloves and using dental instruments. The background shows a modern dental clinic setting with white cabinets and equipment.

About Us

Founded in 2014, DentoCorrect Clinic has grown from a single clinic into a multi-city state-of-the-art facility with the latest dental technologies. From the start, our vision was to create clinics where patients feel valued and receive top-quality care in a comfortable setting.

Over the years, we've expanded our services, offering everything from preventive care to advanced cosmetic and restorative treatments. Our skilled team of dentists and specialists ensures personalized, high-quality care for every patient.

We embrace innovation, incorporating digital imaging, laser dentistry, and 3D treatment planning for more precise, efficient and minimally invasive treatments. Despite our growth, our commitment remains the same: to enhance smiles, improve oral health and build lasting patient relationships.

At DentoCorrect, excellence in dentistry goes beyond treatment—we prioritize trust, comfort and long-term care, ensuring that every visit leaves our patients smiling with confidence.

Dr. Nasreen Nagani
BDS, MDS - Ortho (Dow), Asst. Clinical Director &
Senior Consultant Orthodontist, ClearPath Orthodontics

We are **DentoCorrect Clinic**

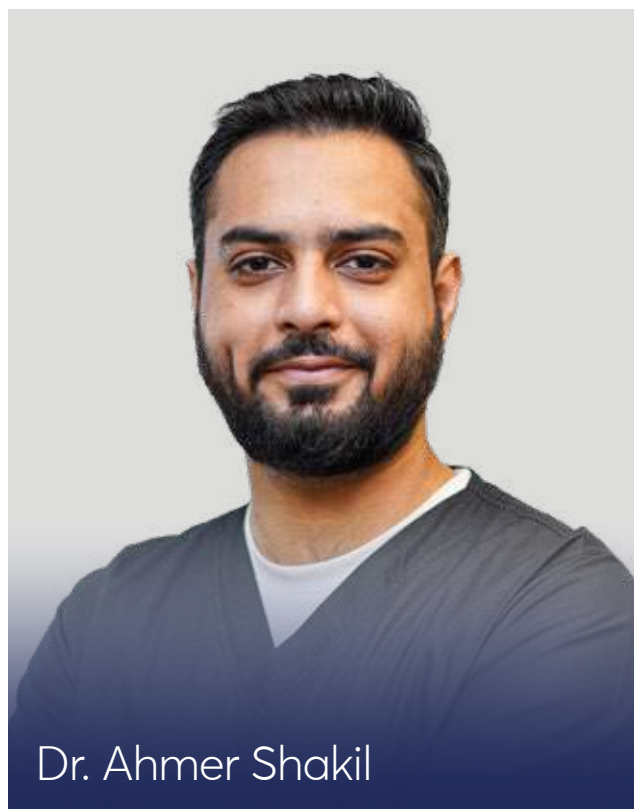

Dr. Nasreen Nagani graduated from Dow University of Health Sciences in 2012 and completed her MDS in Orthodontics in 2019. She has served as a lecturer for six years and is currently the Assistant Clinical Director at ClearPath Orthodontics and **Senior Consultant Orthodontist** at DentoCorrect Clinic. A renowned national and international speaker, researcher, and reviewer, she has received multiple awards of excellence and published numerous articles. She also facilitates orthodontic and aligner courses, including webinars.

Patient Experiences that **Inspire**

Hiba

My aligner treatment has been going great, and the entire team of doctors is friendly, professional, and ensures that patients feel at ease. They provide proper guidance and make the whole process smooth.

Erik

We live in California, USA, and recently came to Pakistan and had dental treatment at this clinic. We had a root canal, zirconia crown and scaling & polishing done and we are extremely satisfied with the experience!

Samiya

It was an amazing journey for my daughter and the most important thing was the painless treatment. I was highly satisfied with whole team and good cooperation of doctor Sara Masood. I highly recommend Dento Correct Clinic.

Shaping **Smiles**, Changing **Lives**

Every smile we create is a story of transformation. At **DentoCorrect Clinic**, our before-and-after cases are not just dental procedures they are journeys from hesitation to confidence, from discomfort to comfort, from hiding a smile to sharing it proudly.

With over **50,000** happy patients, our work reflects the blend of science, skill and care that makes every result personal and meaningful. These transformations showcase not only healthier teeth, but brighter lives because when patients trust us with their smiles, we give them back more than they expect.
